

API Change Log - Version 1.14.0.X for VETtrak 17.2.X

 customer.vettrak.com.au/hc/en-us/articles/115009529107

Version 1.14.0.1 for VETtrak 17.2.1 - 26/07/2017

For security reasons, the ability to retrieve passwords from the API has been removed. This is a breaking change if you are using this field.

The USI field now supports the new exemption code "INDIV" for individual exemptions.

Modify classes

1. TClieDetail

1. Removed fields

1. Clie_Password

Additional data field changes

These changes affect the QueryAdditionalData, GetAdditionalDataFieldsForEntity, GetAdditionalDataForWebRecord, UpdateAdditionalDataForWebRecord, UpdateClientAdditionalFields and UpdateEmployerAdditionalFields functions.

Removed fields
